Proposed programme for the EMF:
What is exciting and individual about this programme? (N.B. World Première performances, especially of works of the late 19th to mid-20th centuries, are of especial interest to us.)
Proposed fee (bearing in mind the fact that the EMF is run on an extremely tight budget and, regrettably, can only afford low fees at present):
I enclose a copy of a commercially recorded CD
I have not yet commercially recorded a disc and enclose a privately-made recording
(please tick the appropriate box)
